SECRETARY

Please extend the Funeral Rule to include Cemeteries, florists, monument dealers and companies that provide products over the internet. The general public must be ensured of their rights to obtain itemized price information, protection against misrepresentation, and the right to choose goods and services and not be forced into making purchases.

Loved ones who are

arranging a funeral are vulnerable enough to begin with, we should try to make their job as fair and straightforward as possible.

Thankyou,
Kathie Mulligan
