As A Small Retailer, I Know First Hand How Hard It Is To Survive In The Discount Store World. The MAP Policy Is One Of The Few Good Things That Have Happened To Help Stores Like Mine Survive.

We Operate On A 28-30 percent Mark Up That Is Enough To Survive On But I Will Be Forced To Let At Least One Employee Go If I Have To Reduce Our Profit Any Further.

This Store Has Survived In It's Present Location Since 1963. I Have Been Employed Here Since Around 1970 + Have Owned The Business Since 1998, So I Have Witnessed Many Changes In The Music World. The Elimination Of The MAP Policy Would Give The Internet Sources As Well As Mass Merchants The Edge That They Will Need To Start The Process Of Eliminating A Store That Has Operated For Over 37 years.

Please Help Us To Stay In Business For Another 37 years
