

Re: CAN-SPAM Act Rulemaking, Project No. R411008

To the Commissioners,

I hate spam as much as anyone. However, I am concerned about the proposed requirement for merchants to maintain suppression lists.

I help families learn about ways to talk to their adopted or foster children. I offer free tips and as the same time I offer different books And products. I could never keep up with the regs of this new proposed Legislation. It will wipe out my little newsletter.

Requirement of the use of suppression lists will seriously damage many of the legitimate publications available on the net. My specific concern is for harm to publishers who require permission from the consumer prior to adding them to any list.

They're not who CAN-SPAM was designed to put out of business, but this requirement will very likely have that effect.

There's also the potential for significant harm to consumers, because of the problem of properly knowing their intent when they unsubscribe from a list. On top of that, these suppression lists could easily fall into the hands of spammers, leading to more spam instead of less.

I was quite surprised at the potential problems this ruling could involve, and urge you in the strongest possible terms to reconsider its implementation in light of these problems,

Respectfully,

Beth O'Malley
