

RE: CAN-SPAM ACT RULEMAKING, PROJECT NO. R411008

Dear commissioners:

I'm really concerned about this new ruling, you are kindly asked to reconsider these decisions because they will effect so many business to the worse, it's the other flip of the coin that we must consider, a simple click on the delete button can take care of many people concerns.

Yet on the other hand if that project goes through, so many legitimate businesses will go out of business or even worse could be punished for being misunderstood or their messages misinterpreted.

I have bought so many products and services from unsolicited emails, products that made a positive impact on my life, and the few that didn't help me, their sellers cheerfully refunded my money, and the emails that I didn't want I simply delete and they are gone in a split of a second, my experience with the internet is wonderful, so many other people's as well I'm sure.

So please again I plead to you to reconsider these decisions, there are so many legitimate businesses online that deserve to be there, please keep them there and help them out.
