

To Whom it May Concern,

I am writing this as a contact lens wearer of over 20 years. I am very much in support of the Fairness to Contact Lens Consumers Act of 2003. I pay for the services of a optometrist to determine the health of my eyes and their current prescriptions. But I don't believe that I should have to pay more for contact lenses from my doctor. The free market economy that we live in should not have restrictions placed on it. And you should not be made to feel guilty or mischievous for choosing to purchase your lenses somewhere other than the doctor's office.

I thank you for your attention and hope that you will continue to enforce that Act that was passed last year.

Sincerely,

Megan Maison
