

To whom it may concern,

I am writing to show my support of the congressionally passed Fairness to Contact Lens Consumers Act of 2003. I have been wearing contact lenses for over 15 years. I wear disposable contact lenses and need 2 pair a month.

In the past few years, I have been able to find contact lenses at a better price from other venues than the provider associated with my eye doctor. As the primary earner in my family, it is advantageous for me to save money when possible. I have had to buy the smallest amount of contact lenses from my doctor simply to get my prescription, so I can buy future lenses from other places. As a consumer and patient it is my right to my prescriptions and medical records. This act gives me the flexibility to purchase my contact lenses for the lowest price, the same flexibility I already have when I purchase eye glasses.

I urge you to uphold this act that gives the consumer rights in an increasingly web filled health care system.

Thank you.

Elisabeth Platt
