

Good Morning!

I am writing this note to give you my opinion on the rights of contact lens wearer. I have had very positive experiences ordering my contact lenses by mail and I hope I can keep on doing so. Any time I have called they have always been courteous and helpful. I receive my order within 3 days which really helps me out. This fact alone is why I order the lenses through the mail. Any time I have ordered through the eye doctor's office it takes over a week and sometimes I do not have that kind of time to wait. I will say that my eye care professional has always been courteous with me whenever I have asked for my prescription and has always complied with my requests. If a person who wears glasses can obtain his or her prescription then a contact lens wearer should also have that same right. It is your prescription and you have a right to that information concerning yourself or your family members. Thank you for your time and consideration in reading my opinion. Sincerely, Rita LeSage
