

Dear/Sir Madam,

I am writing to urge you to resist lobbying efforts by some eye doctors to limit my rights to buy contact lenses conveniently. Eyeglass wearers have had a right to copies of their prescriptions for years. Today, it is easy and convenient to buy eyeglasses. As a contact lens wearer, I deserve the same rights.

Last year, Congress passed the Fairness to Contact Lens Consumers Act of 2003. I urge you to keep this act on the books and to ensure its implementation.

Thank you.
