Dear FTC,

I support the Lens fairness act that was passed last year. As a consumer I support on having my subscription and choose were to obtain lenses. On one occasion after my examination the doctor office did not have my subscription in stock. They informed me that it would take 3-5 days before I can pick the lenses up at the office. With my subscription in hand I ordered the lenses from a contact lens company and received my lenses sooner and paid less.

Sincerely,

Michael K. Thomas
