Subject: contact lens purchases

Dear Sir or Madam:

As a contact lens wearer, it is important to me to have a choice as to where I purchase my lens supplies. It is more expensive to have to purchase contacts from my optometrist. If my access to Internet purchase of contacts using a legitimate prescription is curtailed, it would cause financial hardship. Besides, isn't competition healthy for the economy?

Please take this into consideration, and do not vote to change the existing law. Please protect my individual right to purchase contacts wherever I choose.

Thank you for your consideration.

Yours truly,
Edward Bash
