Subject: new law

To Whom It May Concern,

I support the new law that states I am allowed the prescriptions of my, and my children's contact lense perscriptions without cost. Having been charged an extra \$45 per prescription in the past thru Lenscrafters, I am thrilled to learn of this new law thru 1-800-contacts.

I am not too thrilled however that I can't get a refill for contacts without having a new eye exam every year. I have a daughter in college, far away from home, who has no transportaion. The closest larger city is 30 minutes away. She is out of contacts now, because her prescription is a year and a half old.

Sincerely,

Jane Shawcross
