Subject: I support the Contact Lens Law!

I am 100% in favor of the new Contact Lens Law. It is important to me, as a consumer, to have the freedom to purchase my contacts and/or glasses at the store of my choice. There have been times in the past (have worn glasses and/or contacts for 40 years) when it has been difficult to get my prescription in order to buy the products where it is the most cost effective. Please support this law!
