Subject: I Support the Fairness to Contact Lens Consumers Act of 2003

I support The Fairness to Contact Lens Consumers Act of 2003. Having worn contact lens for over 27 years, I know how expensive contact lens are. I want to retain my right to seek the lowest cost lens available. I pay for both my eye exam and my son's eye exam each year. The prescription is one of the products of the eye exam. I do not want any constraints on where I purchase lens for my family. The costs can vary 100% between suppliers, so it is important to be able to seek the lowest cost supplier. Please do not restrict The Fairness to Contact Lens Consumers Act of 2003. It was enacted to protect consumers and allow fair trade.

Thank you for your attention to this matter!
