**Subject:** Precriptions For Contact Lenses

Please be advised that I strongly demand the right to obtain my prescription for contact lenses from any eye doctor on the basis that I have paid for the service of the examination. In the past I have had the experience of being forced to buy lenses from the examining doctor and was substantially ripped off. I want the same rights as eyeglass wearers and I want to continue to be able to buy lenses from whomever I please.

Sincerely,

Vincent R Bonanno
