Subject: Don't want to wait

Dear Sir or Madam:

I would like to express my concern over the proposed contact rule that would make me wait days to receive new contact lenses. While I think the Fairness to Contact Lens Consumers is a great benefit to contact wearers, this possible addition to the act has me very worried. I am a disposable contact wearer, this means I order new contacts every 2-3 months. I need these to see and often times I need them that day! If I lose a contact or rip a contact, I need to be able to buy a replacement immediately. Please, do not let this rule pass.

Thank you for your time,
Beth Miller
