**Subject:** Please protect my contact lense rights!

My name is Michelle Bernhardt and I have worn contacts for the past 13 years. I can tell you that I have gone through more than a few pairs of lenses and being able to use a service like 1-800-contacts makes life much easier. I still get my exams from my doctor, but am able to obtain my prescription and get my lenses for less money with more convenience. I am righting to ask you to please protect my right to obtain my prescription from my doctor and get my lenses from the provider of my choice.  
Thank you!
