To Whom It May Concern,

I have been a contact lens wearer for about 20 years. As you can imagine, it can be very expensive to buy the lenses and all of the products you need to keep them healthy. I have used 1 800 contacts for about 4 years. I have found it to be very efficient for me, as I do not have the time in my calendar to drive 30 miles everytime I need to refill my prescription. If I was to have to go the the optometrist every time I needed new lenses, it would cost a fortune, never mind the appointment hassles! Please let the consumers be in control of their own eyewear prescriptions. It is for us to decide where to acquire our required eyewear! Thanks.

Sincerely,

Karen Ready
