Subject: Rules for Contact Lens Wearers

To whom it may concern;

I wish to express my support of the new Contact Lens Law. As both a contact and glasses wearer, I have found over the years that it was easy to shop around for a better deal on glasses, but much harder for contacts. I wear my contacts everyday and the cost of them is a sufficient investment that I feel it is only fair to have the same freedom to shop around my prescription for contacts and find the best deals. As consumers I feel we should have that right.

Thank you in advance for your support.
