to whom it may concern,

i support the new contact lens law. many of the eye care professionals i deal with charge an exorbitant amount for contact lenses when i can get through the net at cost. but i need my prescription to order them and they are reluctant to give you this information because they know you will go elsewhere to get the contacts. every contact lens wearer should have the right to go to any seller for contact lenses without going through a lot of rigamarole. i make only \$25,000/year in an area where you need to make about \$35,000 to live comfortably. so the cost that i pay has to be within my limits of expenditure. thank you for listening, sincerely, valentine duck
