Subject: Contact lens law

To whom it may concern:

I have worn contact lenses since I was eight years old. I am 37 now and still wear them daily. On many, many occasions, I have had the need to get lenses within a day or even an hour. I cannot see or drive without my lenses. If I am out of town on business, it is urgent that I have access to get a lens at any time. I can't imagine a law that would limit my access to get lenses shipped on an overnight status. Please do not pass a law that would do this to contact wearers like myself. Thank you for your time.
