Subject: Contact Lens Rule, Project No. 411002

As a musician I travel a lot across the United States. Sometimes a tour gets extended and I run out of contact lenses. As a result I have to be able to quickly and expediently get contact lenses from an internet store such as Contacts.com.

Waiting for several days to receive new contacts could make my job a lot harder and I urge you not to make me wait.

Thank you

Ottmar Liebert
