**Subject:** Contact Lens Rule,Project No. 411002

It has come to my attention that you are considering a rule change that will make it more difficult for consumers such as myself to get my contacts on a quick serve basis from suppliers such as 1-800-Contacts.

Please be informed that I am opposed to any change that makes it slower or more difficult to get my contacts from a supplier such as 1-800-Contacts.I have used this firm for several years and have been totally satisfied.

In past years, when I had to get my contacts from the doctors office or a normal retail outlet I found this to be time consuming and more expensive. As I live in the country, any delay resulted in my having to drive over 50 miles back into town to pick them up , with additional time and costs being incurred.

I am totally satisfied with the rules that exist today and request you not change them!

Sincerely,  
Peggy A. Clark
