Gentlemen

Please be advised that I wholeheartedly support the consumers automatic right to his or her contact lens prescription, without hassle or inconvenience. I also want to assure you that I am in favor of maintaining the ease and convenience of purchasing my contacts from any source I choose, based on that prescription.

Please do not let anyone convince you that restricting the purchase of contacts or requiring a purchase of contacts to get a prescription is in the best interest of the consumer. I have never been refused my prescription but I have to make sure I request it whenever I have my exam. My eyecare provider sells the contacts that I use but at almost twice the price I can obtain them elsewhere.

Thank you very much for your attention to this matter.
