**Subject:** Contact Lens Rules

Dear Sirs,

As the Federal Government has enough to do, I feel they do NOT have to rule the wearing of my contact lens. These are my eyes, I have been WELL informed as to the danger of wearing lens, but I feel the benefits far outweigh the dangers. You have no way of knowing that and should not have to worry or rule accordingly. I have had two such events in which I needed new lens asap. I was unable to receive them because the prescriptions were not readily available to the people filling my R/x even though they were in effect legal and up to date. I agree with the consumer proposal of allowing me to purchase my lens wherever and whenever I wish.

Please, as a contact lens wearer support the Fairness to Contact Lens Consumers Act of 2003.

Sincerely,  
Sally P. Tibbitts
