Subject: oppose waiting for lenses

I oppose that part of the proposed rule which could make me wait days for contact lenses; I do not order lenses from my optometrist b/c I must order and pay for the lenses at his office, then return in 7 to 10 days to pick them up. Other sources such as 1-800-contacts allow me to order the same lenses at any time of the day from my home and I receive the lenses delivered to my door in 2 days. I should have this option since my optometrist cannot or will not provide me with the same service.
