As a contact lens wearer for many years I support the law giving the consumer the right to their contact lens prescription, as eye glass wearers choose their provider. I believe the current laws both provide safety and economy the consumer needs. In the past I had eye doctors who insisted the patient buy lens from them at high prices. This is exploitation. DEAR P.T.C.,

3-19-09

I definitely support this new law in regard to CONTACT LENS. It has been inconvenient to obtain a RX from my eye Doctor so I CAN purchase my CONTACTS elsewhere. I have been charged \$10 whenever I need this done, which seems most ridiculous and unfair. I CAN purchase CONTACTS \$20 or so cheaper at sites such as "1-800 CONTACTS" for the same ones my MD's office would be selling. Any break in the exorbitant medical expenses is much appreciated by the consumer. I support the Rule.

For years now I have gone to only one optometrist in Louisville, KY because all those I've went to before or who are covered by my insurance plan have refused to give me a prescription so I could get my contacts at a cheaper rate at 1-800 Contacts. Dr. Vickers was the only one who would! Even though I had to pay of of pocket for the exam, the amount I could save by cheaper contacts was worth it.

I even called the State Board for optometry in Kentucky and they advised me I was not assured a copy of the prescription. That has always seemed like an unfair ~~to~~ trade practice to me.

I have been a contact wearer for 25 + years. Finally this new Contact Lens Consumers Act of 2003 has provided me some relief from being forced to pay whatever price and markup my optometrist decided when ordering contact lenses from him. I always had no choice in choosing to buy somewhere else at a better price because the Dr. would not release the prescription to me. Various illogical excuses and reasons were always given. But the real reason was to protect his dispensing business. I therefore oppose any weakening of this Act by changing the provisions as the optometrists lobbies suggest.

I want buying lenses to be easy and convenient and separates the dispensing side of the business from the prescribing side.

As a contact lens consumer, I believe I should have free access to my lens prescription. I believe this is a personal freedom to information about my healthcare issue and should not be kept from me in order to prevent me from purchasing lenses where and when I choose.

I appreciate your consideration of what should be my right as an American citizen.

I am writing to tell you that I support the new Contact Lens Law. I have wore contacts for many years and I am grateful for Companies like 1-800-Contacts which makes Purchasing Contacts Cheaper and much more Convenient than buying them from my eye doctor. I don't have to make a trip to the doctor's office to pick up my contacts - they are delivered to my door and in much less time than my doctor got them to me. Also everytime I purchased contacts at the eye doctor they were a little more expensive. Now I pay basically the same price each time and its a lot less than he

Dear Trade Commission,

As a medical prescription I should have the right to buy contact/eye prescription where I would like - I support & encourage laws that would enable me to do so, it is convenient / competitive to have them delivered to my door + cheap. When I've had a defect - it has been rectified promptly - reimbursed - replaced - free shipping - I talk to a person not an answering machine

Dear Sir or Madam:

I write to voice my strong support for a contact lens wearer to have full access to her contact lens prescription, uninhibited by protectionist restrictions intended to put money in the pockets of optometrists and ophthalmologists. Like a prescription for medication, contact lens prescriptions should be issued to patients so that they are free to fill the prescriptions where they so choose. This is not only a matter of patients' rights, but it is also a matter of encouraging and enabling a free and competitive marketplace.

that while I could get a glasses Rx from
the eye doctor, they would not give me a
copy of my contact lens Rx, supposedly
because they would be liable if someone
else filled the Rx as they had written it,
and it was wrong. I'm not an idiot. It is
clear they were doing this so they could
make more money selling me the C.L.'s.
They'd be liable for a wrong Rx no matter who
filled it!

I Doris moreno support the Law
which gives me the right to my contact
lens prescription.

I like to have my prescription
so I can get the best price.

Most doctors don't want to release
the prescription, so you are stuck
buying from them. Example ① Pr. Office \$30.00 Box,
② 1800 contacts \$20.00 Box.

To: Federal Trade Commission

I support the new contact lens
law. While my eye doctor did not
refuse to give me my prescription, he
was not too happy to do so. I could
order from 1-800-contacts and get them
less than half the price. If I need
to get another eye^{exam}, I would want my
doctor to give me my new prescription.
I'm at retirement age and the difference
in the price is very important to me.

Dear Federal Trade Commission, 5/19/04

I support the new Contact Lens Law.

I should have the right to my prescription, I paid him to inform me of my condition with my eyes, so I should be able to use that information to my best advantage.

Thank you God Bless

Dear FTC,

I am a strong supporter of the new contact lens law. Please do not let the progress this law represents limit the rights of contact lens wearers through any modifications of the law.

Access to one's contact lens Rx
is a true patient right. 3-19-07

It is outrageous for eye doctors to
be able to refuse to provide contact lens
prescriptions to their patients. It is
potently obvious that their profit
is their only motive. I have asked
for my contact lens prescription before and
been told that not giving it was for "my
own good." GIVE ME (AND ALL OF US) A BREAK!

I've been wearing contacts nearly 20 years.
Once I have paid for my eye exam,
I should be able to buy my contact
lenses wherever I want. That's the
American way: free market economy,
find the best deal you can. Doctors
are still getting paid for eye exams -
let them lower their prices on lenses
if they want my business. Otherwise
I'll take it elsewhere. Stephanie Turner

CONTACT LENS PRESCRIPTIONS ARE PART OF AN INDIVIDUAL'S MEDICAL RECORD AND SHOULD BE AVAILABLE TO THAT INDIVIDUAL.

PHYSICIANS DO NOT 'OWN' THEIR 'SERVICES' AND CANNOT CONTEST THAT THEY MUST CONTROL DISPENSATION OF VISION CORRECTION. PATIENTS ARE RESPONSIBLE FOR THEIR OWN HEALTHCARE. THE DAYS OF PATERNAL DOCTOR-PATIENT RELATIONSHIPS ARE OVER.
