Subject: new contact lens law

To whom it may concern,

I am disgusted with the idea of my eye doctor keeping my personal information from me.

I am totally in support of the new Contact Lens Law.

I would like to go to my own contact lens and eye glasses provider, independant of the eye doctor.

I support the law which gives one the right to one's contact lens prescription. I want the purchase of my lenses and eye glasses to be easy and I want the freedom to choose where I buy them.

Thank you.
