Subject: Support Contact Lens Rule

From:

Karen Hood: MD

I support the Contact Lens Rule. I have worn contact lenses for over 30 years and feel I should be provided a copy or at least a form that describes my prescription for contact lenses.

I have stopped seeing my regular Eye Doctor, _____ in _____ MD because he and his staff were unethical by not giving me and my family our contact lens prescriptions. Of course, they wanted me to buy their contacts instead from another vendor. I explained I would buy them from him if they provided the same convenience and a competitive cost. I have used 1-800-contacts for many years with no problems. He told me they were "gray market" lenses, not quality, bla bla bla.

I support this new law. Thank you. Karen L Hood
