Subject: Complaint about 1-800-Contacts

Yesterday I received a request for a patient of mine for a prescription for Acuvue 2 lenses. This patient had never worn these lenses, so I was surprized. When I contacted the patient, he admitted that 1-800-contacts had recommended these lenses, so he thought he would try them! They should not be able to send a fax request to verify the prescription information this way! No fitting of this lens had been done at all -this isn't legal and shouldn't be allowed.

Sincerely,
Kenneth D. Boltz, O.D.
