Dear FTC,

I support the law that gives me access to my contact lens prescription. I want buying my lenses to be easy & convenient, & I want the freedom to choose where I buy them. I have had trouble getting my prescription in the past from an eye doctor. He had done an eye exam on me in the past & refused to give me the prescription over the phone. Thank you for protecting my rights as a consumer.

Sincerely,

Allison Weber

Concerned Parties:

I have had trouble getting my prescription. I asked rudely for asking for it. was prescribed a brand that was more expensive and they knowing it would be difficult for me to get from my preferred retailer. I am leaving that Dr. But the Dr. stuck me in a 2yr. connection with the lens I didn't want. or I would have to go to another Dr. and pay for a new exam. ETC.

Good Morning -

It has come to my attention that I may be unable to obtain my lens prescription ^{from} for my ophthalmologist. I very much want the opportunity to shop around for purchasing my contacts and eye glasses from different organizations.

Please support the new law.

Thank you.

I support the Contact Lens Law. It is important to me that I have the right to purchase my lenses from whomever I choose. My new ophthalmologist gives me a copy of my prescription for the above purpose. Other eye doctors that I have dealt with have not done so.

I do not like ordering lens from my doctor for
Several reasons. The cost is much higher than
Other providers and the last time I ordered,
it took more than one month to receive the
lens. Upon questioning the staff I was
informed that bulk orders were placed to
receive a price break - orders were held until
a large order ~~was~~ ^{could be} placed and they only had to
pay for shipping "once". Anything that was ordered
special^(rush) was paid for by the consumer at increased
prices + shipping. It is a money making business
for physicians. As a consumer I feel that I should have the
right to shop prices. ^{They don't give Rx's.}

Dear Federal Trade Commission Officer,

This note is intended to inform you that I support the law which gives patients the right to obtain a free copy of their contact lens prescription. The optometrist charges between \$4-6 more per box of lenses compared to other vendors. Americans deserve the right to participate in a free market economy.

To Whom It May Concern @ the FTC.:

Contact prescriptions should be given to the patient. One needs to know what test results are for that person's EYES.

One pays the optometrist/optician for such exams and services. It is the prerogative of the patient to know and keep on own records.

One has the right to buy sterile lenses where convenient and good deals are given. I was given problems Please do not print below this line before. Not pleasant!

I am in support of The continuance + enforcement of The Fairness to Contact Lense Consumers Act of 2003. As a family of contact lense wearers, the ability to purchase lenses from discount providers saves us more than \$500 a year! Eye doctors + opticians are paid for the fitting services they provide; if they would ↓ their contact lense prices I would happily buy from them.

Please do not alter The law that allows me to purchase lenses from whomever I choose, + continue to ensure providers dispense prescriptions when asked. Candace T. Felt

I Support the law which gives consumers the right to our contact lens prescriptions plus the flexibility to purchase lenses from whoever we want. With the ^{high} cost of eye exams & some insurance companies do not cover them, we have to be able to save every penny we can. We should be entitled to our prescriptions from our eye doctors just the same as a regular M.D.

I purchase my contact lenses from 1-800-CONTACTS because I can save \$6-7.00 a box compared to my optical/eye doctor office. I usually order 1 box each from my eye doctor to help her defer cost of samples while I am deciding ^{which} do not print below this line which one I like best.
