TO whom it may concern,

The last time I went to the eye doctor I ordered glasses after my eye exam. I also told them I was getting contacts which I have been wearing for years, the doctor would not give me my prescription unless I ordered contacts from them. This was with pearl vision, they charged me twice what I pay with 1800 contacts. I feel this is a welfare practice to make money for them. We as consumers should have the right to decide from who we ~~don't~~ feel is the best price we pay for the eye exam already do they need to expect more money from us for contacts too.

Hello-

As a concerned consumer, I support the right of each person to obtain a copy of their prescription for contact lenses. I believe it is only fair given that one pays for the eye examination. I once had an optometrist try to charge me \$100 for my prescription - after I had just paid for my eye examination! That kind of conduct is outlandish.

TO THE MEMBERS OF THE FTC:

I STRONGLY SUPPORT THE CONTACT LENS CONSUMERS ACT OF 2003. THE CHOICES I HAVE NOW COMPARED TO WHAT THEY WERE, ARE DRASIC. I NOW CAN ORDER LENSES FROM ANYWHERE. HAVING MY PRESCRIPTION AVAILABLE ALLOWS ME TO ORDER ANY TIME THE NEED ARISES. I AND MY FELLOW CITIZENS PAY OUR EYE DOCTORS FOR OUR EXAMS, WHICH THEY DESERVE. HAVING TO PAY FOR A PRESCRIPTION OR BUYING LENSES FROM THE DOCTOR AS COMPENSATION FOR SUCH IS UNJUSTIFIED. THIS IS NOT THE CASE FOR EYEGLASSES IT MUST NOT BECOME THE CASE FOR CONTACTS. WHERE IS THE JUSTIFICATION FOR THE DIFFERENCE.

I am a contact lens wearer for the past 13 years. I am writing to you in support to the law which allows me the right to my own contact lens prescription. I consider this a piece of my medical record which a patient has the right to view and copy without restriction and at no cost. A contact lens prescription is no different in my view. I want my purchase of lenses to remain convenient and easy. I also want to be able to purchase my lenses from anywhere that I choose. I have purchased lenses at both my eye care facility and through the mail with the only difference being price & convenience. I have NEVER had a problem with lenses bought through the mail allowing me to obtain my lens prescription with preserve this right and make my purchases continue to be convenient and easy. Dear Sir or Madam,

I enthusiastically support the law that grants me the right to my contact lens prescription.

It's only fair that a contact lens wearer have the freedom to shop for the lens wherever they want. We need to be able to shop for the less expensive lens, if that's what we want.

After my last check-up, I was given a trial pair of a particular brand-name lens. When I called to find out what brand it was & to get my prescription to order the brand, I was told to pay a \$40 fitting fee before I could have access to my information. Needless to say, I didn't pay for it.

To whom it may concern:

I completely support the law which gives me the right to my contact lens prescription. I once had a doctor who refused to give me my prescription because I wasn't purchasing my contacts from his office. When I asked the nurse, "So basically I have to buy my prescription?" Her reply was, "Yes". In the end he gave me a prescription - only later was I told it was my eyeglasses prescription. As a patient I should not be railroaded into paying inflated prices for contacts. To whom it may concern,

I deserve the right to buy contact lenses where ever I choose to. We are lucky to live during a time when vision correction is so easy and accessible, if it's possible than it should be. However, it's not always affordable. Without my contacts I would be almost legally blind. I could fall down the stairs, hit somebody with my car, there are numerous safety hazards affecting ~~me and~~ others and myself. Putting obstacles in the way of people and affording the cost of vision is a price that everyone will end up paying off.
