Dear Mr. Dunn or Mr.:

I support the law which gives me
the right to my indentured prospective.
I prefer to buy my house in the most
convenient manner possible, and to
do so for the best value. This is
particularly important now that my future
rental space costs will continue to
rise.

Thank you.

I, Dean Hawk, support the Law giving consumers the right to their Contact lens prescription.

I enjoy the freedom to buy my lens where I choose which keeps the prices competitive.

It is very convenient to purchase online or by phone the way the system/Laws currently exist

Thank you,

I support law which Congress passed last year - I am a Zeno consumer. When my doctor failed to provide me with my prescription, I was unable to purchase new lenses at another location for substantial savings. When I contacted my doctor to get my prescription, I was informed that I had to come in for a visit, even though it was less than nine months from previous visit. I have worn lenses for many years and my eyes are stable. There was no need for me to have to go back for a doctor visit except to generate add'l costs to me,

To the Federal Trade Commission,

I am writing to tell you how much I support the law which gives me the right to have my optometrist's prescription, and how important it is to me that it be enforced.

My eyes have been much healthier since I have been able to order my contact lenses through the mail, rather than going through the arduous process of spending upwards of an hour in an optometrist's office to pick up + pay for my lenses. This is because I can purchase disposable lenses, and I no longer have to worry about my supply running out. I can replenish it easily at any time convenient to me. As a result, I no longer do things like wear my lenses two days in a row to avoid the process of refilling. It is vital to me that I continue to be able to get my lenses this way. Please support

I do support the law which gives me the right to
my contact lens prescription. I have ordered my
contacts from 1800 contacts for years because of convenience,
however and last time I chose an eye care center
because of advertisement for eye exam + good service.
With discount. However, when I finished the exam
I wasn't informed I must buy my contacts there.
I wasn't informed I must buy them then most orders
there plus over 3 times higher than most others.
I refused to buy them because I still had contacts
at home and because I lost therefore, they wouldn't
give me the contact prescription. I didn't return --
the store finally left the mall.

I support the new Contact Lens Law "Fairness to Contact Lens Consumer Act of 2003."
I want the right to purchase my contact lenses from whatever I choose. Prices are competitive & I need door to door service.

Dear FTC: I have been wearing contacts for a long while - since I was 16. I do support the law that allows me the right to have my prescription. I've always thought how strange it was to receive my glasses prescription, but never my contacts. I always thought it was a way for eye doctors to make more money. Thank you for your support.

I want the right to have my contact lens prescription. I want the flexibility of shopping for more reasonable prices on contacts. I do not want to feel obligated to buy my prescription contacts from my practitioner as I have felt in the past. I like having the ability to shop around because often my practitioner would not have my prescription contacts available & I would have to wait until they came in to pick them up. I like having an easy & convenient way to buy them.

I would like to be able to buy contact lenses for myself & my two children at the lowest possible price. I have frequently had a difficult time obtaining our prescriptions from the eye doctor but buying lenses from him is too expensive. Please help my family by ensuring the new Contact Lens law is enacted. Thank you. Mether Cowaboo

I support the law that gives me -
the consumer the right to my contact
lens prescription. I think the current
situation is a monopoly for Doctors + eye
glass stores. I should have the right to
obtain contact lenses wherever I choose
without hassle. Once I pay for the subscription
it should be mine! Please pass this law
long overdue!!

I am writing in regard to the Fairness to Contact Lens Consumer Act of 2003. I completely support this Act. I have been wearing contact lenses for years and it very inconvenient and costly to have to go to my Optometrist for a prescription and get charged an office visit. This is unfair and unjust. I am a long time contact lens wearer & have recently been informed that my rights to freely purchase contacts anywhere & from anyone are being threatened. Please do not be persuaded by doctors to take this away. I like the convenience & ease with which I can currently purchase my contact. It is also much cheaper. I hope this right will not be taken away.

Sincerely,

Susan Wiseman,

Dear Commission,

It is very important to me that the new Contact Lens Law slaps as not charged.

I feel it should be my right to buy contacts at a lower price from other consumers than where I get my eyes checked. I should receive my prescription.

Dear FTC,

I am writing in support of the new Contact lens law. I appreciate being able to buy my lenses from whomever I choose, despite an eye doctor's "suggestion" on where he/she thinks I should buy them. I would like their 'suggestions' to remain exactly that. I support being able to receive a copy of my contact lens Rx just as I do with my eyeglass Rx.

Thank you very much,

I support the law which gives me rights to my contact prescription. I used to go to an eye doctor in Cumbernauld, who and because he refused to give out my contact prescriptions, I changed to a new doctor. Luckily they were willing to give me the freedom to order what I chose. Please support this law!

I have the right to purchase my

had an eye doctor refuse to give
me my script when he found out
I wasn't buying from him. He
offered to "sell me my prescription

loss." (He was selling the lenses at
more than 2x the price I could purchase them
from 1800 contacts etc.)

Gentle people,
I am in absolute agreement in my support of the
FTC law which gives me a right my prescription.
As an American in a capitalist-based economy, the
ability to choose from quality care providers and
shop for the best price helps keep my costs down
for products. I have been dealing with an outside
provider for many years and have had nothing
but positive experiences. Luckily, my eye doctor
has never given me any problems releasing my Rx.

I may be sending this too late but
thought I should send it anyway.

I support the law which gives me
the right to my contact lens
prescription. Contact lenses are
overpriced, so being able to shop
around is important.

My glasses cost between \$500 - \$600
& my contact lenses (a year's supply)
sometimes cost \$300. The cost for
all of this is ridiculous, in part because
I have significant nearsightedness &
astigmatism. Regular health insurance
covers little, if any, of the cost.

To whom this concerns,

I am writing this today because I feel that I should have the right to buy my contact lenses where I choose to, and at my convenience. I like home delivery and the idea of price competition.

A prescription for contacts differs in no way from any other medically necessary one. I am free to choose my drug store, I should be free to choose my contact lens dispenser.

Most sincerely,
Sandra L. Ouellette RN
