To Whom it may Concern:

Thank you SO much for taking this to the public!! I am disabled and will not be able to make it to the workshop or you can bet my voice would be heard.

I need to run a cleaner, all the way down to my registry files, at least once a week to get rid of all my adware/spyware JUNK. Gator has got to be the worst. I don't think I'd care if they were \*giving\* away a brand new whatever, I wouldn't even bother as many times as I've had to track them down in my reg files and delete them. They do this without my permission!!!

I want them STOPPED. Period. I am a proofreader/copy writer and editor for websites. I'm already editing sites to comply with the CAN SPAM law. I'm doing my part, please, please, please...STOP them!
