Subject: Spyware Workshop - Comment, P044509

To the FTC:

I was delighted to hear that on April 19th, the U.S. Federal Trade Commission (FTC) had a day-long workshop focusing on the growing spyware and adware problem.

Bravo! Please keep up your efforts to find ways and means to deal with this insidious problem. The vast community of PC users who surf the web and/or download software is not able to deal with this problem alone.

Your efforts are greatly appreciated.
