I and all of the people i speak to about the spyware and adware being shoved down our throats by these spammers is the same: THEY NEED TO GO THE WAY THAT THE DO NOT CALL LIST STOPPED MY PHONE FROM RINGING! This type of spam must stop and the sooner the better. We spend a lot of money on our computers then to have to spend more to get this JUNK out is just not what we want in a product. I am in favor of seeing this JUNK stopped.

Thanks
